1. Overview

Pursuant to Section § 6–529 of the Economic Development Article as amended (the Act), on or before January 1st of each year, the Maryland Technology Development Corporation (TEDCO) shall submit a report on the implementation of the InvestMaryland Program (the Program) to the Governor and, in accordance with Section § 2–1246 of the State Government Article, to the Senate Budget and Taxation Committee and the House Ways and Means Committee.

For purposes of clarity and completeness, this annual report will consolidate the activities of the InvestMaryland program and the Enterprise Fund under the title of the Maryland Venture Fund. This report represents the first nine months of operation under the administration of TEDCO.

On October 1, 2015, the Maryland Venture Fund (MVF) was transferred from the Maryland Department of Business and Economic Development (DBED) to TEDCO. Andy Jones – who spent 15 years in the venture capital industry at Grotech Ventures and Boulder Ventures before successfully building and exiting his own venture-backed startup – was recruited to lead the turnaround effort to operate MVF as a professional venture capital fund. He started in the fall of 2015 and completely rebuilt the team over the next nine months.

As a result, MVF is now led by a team with successful operating and professional venture capital fund experience. New members of the team include Parag Sheth (Andy and Parag have worked together in the past and have produced returns for their investors through two successful startups), Phil Jung (Foundation Capital, TDF Ventures), Moss Amer (TCP Venture Capital), and Arti Santhanam (PhD, Microbiology and Molecular Genetics).

Maryland Venture Fund Team

The new Maryland Venture Fund investment team was purposefully built to maximize full geographic coverage of the deal hubs in this region and its offices are based in Columbia, Maryland.

3. Private Venture Capital Fund Allocations

Of the \$84,000,000 raised in the premium tax credit auction, 67% or \$56,280,000 was allocated by statute to investments in private venture capital firms committed to investing their designated capital in Qualified Businesses in the Maryland. From among the 37 venture firms that applied for the InvestMaryland Program, the Maryland Venture Fund Authority selected and prioritized the nine funds below.

The Enterprise Fund (dba Maryland Venture Fund) undertook implementation of the Authority's recommendations regarding the selection of firms for private venture capital allocations under the Program, which entailed negotiating the terms of investment with each venture firm and actively managing each relationship.

As of 6/30/16, the following nine venture firms received commitments of designated capital, although the capital will be called over the 10-year life of each fund. All firms that receive allocations have committed to investing in Qualified Businesses in Maryland an amount equal to the State's commitment in that venture firm.
